# Dynamic Xuan Kong Feng Shui

with Master Joseph Yu

This seminar is not about any advanced formula in Xuan Kong Feng Shui. Rather, it is about the foundation that most students need. In Feng Shui books and popular courses, Xuan Kong Feng Shui is treated in a rather static way. People know only to talk about combos of numbers. The dynamic nature of the flying stars is lost.

The very first stanza of Tian Yu Jing tells us the secret of Xuan Kong Feng Shui:

***During his retirement, Master Yang watched the female and the male.***

Of course Master Yang was talking about how the mobile yang qi comes towards the quiet yin qi. It is not a formula but it is the foundation of all the formulas. In this seminar, you will learn how the flying stars work. You will learn why sometimes the numbers are there but the effects are not there. You will learn how to make the stars work for you.

The second line of Tian Yu Jing says:

***All the books in the world are different from his right teaching.***

After attending this seminar, you will practice Xuan Kong Feng Shui is a different way. You will not be depressed anymore because the feng shui you practice works well now.

This is what one practitioner after taking this course said,

***“Now I understand why what I practiced work in some houses but not in others. From now on it will work all the time.”***
